

THURSDAY 21ST MARCH

ROMA / DORIA ROOM

11.30 a.m. – 01.30 p.m.

Regeneration

President: P.L. Santi (Genova)

Chairman: L. Rosato (Piacenza)

Panelists: A. Macciò (Savona)

Lecture: the new regenerative surgery

11:30 M. Scala (Genova)

MEDICINE AND REGENERATIVE SURGERY IN ORTHOPEDIC SURGERY

Autologous fat graft as a treatment for Knees' arthrosis and new possibilities under the Italian and European law

11:40 M. Stabile (Piacenza)

MEDICINE AND REGENERATIVE SURGERY IN VASCULAR SURGERY

Tissue regeneration with fat graft in critic limb ischemia

11:47 A. Settembrini (Milano)

New strategies for venous ulcers and diabetic foot

11:54 L. Gazzabin (Firenze)

Conservative treatment in diabetic foot

12:01 P. Marannino (Bari)

MEDICINE AND REGENERATIVE SURGERY IN GYNECOLOGY SURGERY

The role in vulvar reconstruction multidisciplinary approach in the treatment of vulvar lichen sclerosus

12:08 I. Baldelli (Genova)

MEDICINE AND REGENERATIVE SURGERY IN BREAST RECONSTRUCTION

Use of homologous acellular dermal matrix for breast reconstruction

12:15 E. Ponte (Genova)

Innovative tissue engineering strategies to enhance the vascularization of ischemic tissues

12:22 C. Stocco (Trieste)

How to regenerate the skin after radiation therapy

12:29 V. Quercia (Roma)

Fat graft a brand new pain killer

12:36 A. Castagna (Milano)

Breast reconstruction from the past to the future

12:43 P. Parisi (Milano)

SELECTED ABSTRACT

12:50 **Treatment of finger degloving injury with acellular dermal matrix: functional and aesthetic results**

Paolo Claudio Marannino, Michele Maruccia, Rossella Elia, Giuseppe Giudice
